BUBEN&ZÖRWEIG

NEW MASTER
PIECES **2017**

Enterprises striving towards the unique are not satisfied with simply going with the times. They shape their time by making their own distinctive mark on it. Everything that belongs to time is fertile ground on which outstanding designers and passionately innovative developers cultivate unique objects. Time is the interface between honourable tradition and the dynamic courage to create Utopia. Time holds its breath for a while in our masterpieces. Timelessness takes on a fascinating form. These precious moments of pausing in astonishment in the flow of time are what we at BUBEN&ZORWEG work for. Time in Motion.

TIME IN MOTION

ILLUSION

As is often the case in daily life, there are occasions when one wants to protect certain items – watches, jewellery, accessories, or perhaps documents or cash – without the effort of going to the safe. ILLUSION brings the fascinatingly simple security solution to the office, changing room or bedroom. The safe is unlocked by way of a fingerprint or a transponder chip and immediately raises its contents elegantly upwards.

BUBEN&ZORWEG's passion for innovative design finds expression in many details – such as the drawers that pivot outwards to the side to present an overview of their contents. Would you like to swap your favourite watch during the course of the day? No problem: two or, if you prefer, four TIME MOVER® modules in the TABLE SAFE make it easier for you to choose.

A weight of 40 kg speaks for the massive steel body that can also be fixed securely to its location. The ILLUSION OBJECT OF TIME® stands as a representative pillar, an attractive eyecatcher next to the table, optionally equipped with a Fine Timepiece with a BUBEN&ZORWEG signature movement (also available for the smaller version). This masterpiece of refined craftsmanship boasts sufficient space for 12 TIME MOVER® modules or five drawers.

SOLITAIRE VISION

A fascinating timepiece enclosed in a shimmering stainless steel bezel is a striking feature in the otherwise unadorned elegance of the impressive SOLITAIRE VISION. Its inner values are protected by bullet-proof spy glass that allows an insight as soon as the sophisticated LED lighting system is activated. 46 TIME MOVER® modules hold exclusive automatic watches, some of them in the integrated BUBEN&ZORWEG SI-60 safe. And because spending time with special values is so enjoyable, a humidor, bar module and integrated Hi-Fi system all serve to enhance the enjoyment of refined treasures – be it alone or in pleasant company.

GUARDIAN

There is so much more to the GUARDIAN than the elegance of its classic design reveals at first sight. The first surprise: when the innovative LED light system makes the two-way mirror glass door made of 8 mm thick safety glass fully transparent to reveal an impressive collection of precious watches – naturally presented on value-preserving TIME MOVER® units. Many aspects of the GUARDIAN are defined by its respective owner – the design of the housing, for instance in elegant Macassar or an impressive carbon fibre look, or the new SI-40 safe and presentation table as optional extras ... every version is a fascinating masterpiece of elitist design and perfect craftsmanship.

COLLECTOR

36 / 45

The passion for luxurious automatic watches is what makes collections grow - the new models of the COLLECTOR family therefore justifiably offer room for a few more precious items: 36 or 45 TIME MOVER® modules to safeguard and preserve the value of sensitive calibres that demand to be moved. The elegant interior in fine velours and Italian nappa leather is befitting the values that the COLLECTOR 36/45 safeguards. It can be equipped with an alarm and/or GPS tracking system on request. A Hi-Fi system with Bluetooth streaming can also be integrated to provide musical accompaniment for the enjoyment gained from devoting time to the collection of treasures.

BUBEN&ZÖRWEG MEETS ART SUPPORTING "GREEN CHINA"

THE STROKE DEPICTS NOTHING,
BUT RATHER EXPRESS
SOLACE, JOY, DIRECTNESS
AND TRUST.

BURIGUDE ZHANG
ARTIST, BEIJING, CHINA

A company that is as committed to creative design as BUBEN&ZORWEG is will also have a particularly close relationship with art. The PRIVATE MUSEUM offers the ambitious art collector fascinating new options for protecting and simultaneously presenting valuable artefacts. The start of "BUBEN&ZORWEG ART SAFES" sets another milestone in the cooperation between art, collectors and social responsibility.

Internationally renowned artist Burigude Zhang, a lecturer in Beijing since 2017, has designed a BUBEN&ZORWEG safe – he makes reference to Tao Chi, according to whom a single stroke of a paintbrush bears within it the origin of all that exists. Burigude: "The stroke depicts nothing, but rather expresses solace, joy, directness and trust."

The safe will be presented as a unique item at Baselworld and Salone del Mobile, Milan and will then travel to the Art Beijing exhibition, where it will be auctioned. The sale proceeds from this cooperation between Burigude Zhang and BUBEN&ZORWEG will be donated to the non-profit organisation "Green China" that plants trees as a natural barrier against air pollution.
